Research Experience

African American Women's Collaborative (AAWC) R.I.G.H.T Path Scholar **September 2026 – Present**
Emory University & Morehouse School of Medicine, Atlanta, GA

- Engaged in interdisciplinary research collaboration with students across medicine, nursing, physician assistant studies, and public health.
- Contribute public health perspectives to a collaborative research initiative to develop a scholarly research product for publication and presentation at academic conferences.

Public Health Data & Research Intern **May 2026 – August 2026**
Wellness Equity Alliance, Scotts Valley, CA

- Conducted a Geographic Information System (GIS) spatial analysis in R by merging HIV prevalence, Social Vulnerability Index (SVI), and county-level geographic data to identify patterns in disease burden and healthcare access across Arizona.
- Developed an HIV Clinical Quality Measure analysis by integrating appointment and laboratory data, calculating screening rates, benchmarking performance against national measures, and translating findings into data- driven recommendations for public health practice.
- Created patient-facing health education materials, translating clinical guidance into clear, accessible language for unhoused populations.

Program Development & Research Intern **January 2025 – May 2025**
Magnolia Medical Foundation, Jackson, MS

- Designed and piloted the Laundry Services Project, a public health intervention to mitigate health inequities linked to hygiene insecurity among unhoused and low-income communities.
- Synthesized qualitative and quantitative research to identify public health trends, developed outcome-driven programming, and created a logic model and evaluation tool to support program implementation.
- Contributed to cross-functional health equity initiatives, including a clinic inventory proposal and an educational presentation on stress and cardiovascular health, to further understand how social determinants impact chronic disease outcomes.

Cardiovascular Research Scholar **August 2024 – May 2025**
American Heart Association, Jackson, MS

- Partnered weekly with a research mentor to design and execute a quantitative study addressing cardiovascular disease risk factors.
- Participated in bi-monthly professional development and community engagement events to strengthen leadership skills and expand knowledge of healthcare systems.
- Presented observational research at both the American Heart Association Scientific Sessions and the Annual Research Symposium, showcasing findings to professional and academic audiences.

Mississippi INBRE Health Scholar & Research Intern **May 2024 – July 2024**
My Brother's Keeper Inc., Jackson, MS

- Collaborated daily with a research mentor to conduct quantitative analysis on the impact of pesticide exposure on pregnancy outcomes among Black women in Mississippi.
- Orchestrated ethical research practices, including IRB protocols and human-subjects surveys.
- Synthesized and presented original research findings at the Mississippi INBRE Conference, engaging an audience of over 300 public health and biomedical professionals.

Public Health Informatics, Research, & Technology Intern **February 2024 – May 2024**
Office of Vital Statistics, Mississippi State Department of Health, Jackson, MS

- Facilitated a data analysis project on marriage certificate data to compile the number of same-sex marriages in Mississippi for 2023 and compare it with previous years.
- Collaborated with birth certificate sector staff to develop 5 solutions to address delays in the birth certificate retrieval process.
- Composed a 10-question quality-improvement intervention questionnaire to assess the midwifery birth-certificate process.

Professional Experience

Peer Tutor **August 2026 – Present**
Morehouse School of Medicine, Office of Student Learning & Educational Resources, Atlanta, GA

- Provide individualized academic support and tutoring to graduate students in Epidemiology, Environmental Health, and Research Methods courses.

Alexander Center Hall Community Assistant **August 2024 – May 2025**
Housing & Residence Life, Jackson State University, Jackson, MS

- Provided a positive environment for over 800 students to thrive while residing on a college campus through program development and leadership.
- Implemented crisis response measures for residents during local, state, and national emergencies.
- Spearheaded daily managerial tasks to ensure residential buildings remained operational in accordance with the Institution's standards.

Photo Archives Program Assistant **September 2023 – May 2024**
Getty Images, Jackson, MS

- Analyzed photos for uniqueness and quality for use in Getty Images' digitization and publishing program for Historically Black Colleges and Universities.
- Conducted scanning of various types of photos and prepared them for software review.
- Assisted corresponding colleagues in daily metadata searches on photos eligible for the Getty Images digitization and publishing program.

Seasonal Dental Reception Assistant **May 2021 – January 2024**
Dr. William R. Berry III, Albany, GA

- Welcomed over 40 patients a day and answered all incoming questions about dental treatment.
- Navigated charting for new and returning patients at least 3 days in advance to minimize patient wait time.
- Collaborated with other receptionists to research patients' eligibility for dental treatment through Georgia Insurance companies.

Community Engagement

National Public Health Week: Sexual Health Awareness Drive **May 2026**

- Organized a sexual health awareness initiative, providing evidence-based education on STI prevention, sexual health, and available community resources.

Morehouse School of Medicine Day of Service **April 2026**

- Assisted in cleaning the Washington Park section of the Atlanta Beltline to ensure a safe, clean trail for community use.

The Power of We Community Engagement with the Emerging 100 of Atlanta, GA **January 2026**

- Assisted in packaging hygiene health bags for men at homeless shelters in Metropolitan Atlanta.

Community Engagement Day with Morehouse School of Medicine **August 2025**

- Assisted with promoting on-site health screenings and health insurance sign-up for Metropolitan Atlanta residents.

Awards/Scholarships

- 2025-2027 Morehouse School of Medicine Coca-Cola Scholarship Recipient
- 2025 Jackson State University College of Health Sciences Student Marshal

Community Service Activities, Jackson State University **August 2022 – May 2025**

- Hearing Loss and Literacy Symposium: An initiative to promote awareness of the challenges adults and children with hearing loss face when dealing with literacy and everyday life.
- Water distribution during Jackson Water Crisis: An initiative to promote access to clean water during the Jackson, MS water crisis. Water was distributed to local Jackson residents at no cost.
- Crop Drop: An initiative to promote healthy produce availability. I helped distribute fresh produce to community members in Jackson, MS, at no cost.

Leadership/ Involvement
